

### DESCRIPTION

A polyether polyurethane foam which has a high density and hardness for use as a core material in abrasion pads.

### TYPICAL PHYSICAL PROPERTIES

Physical properties are measured using test methods based on the relevant BS EN ISO standards.

|                                    |                               |
|------------------------------------|-------------------------------|
| <b>Nominal Piece Density Range</b> | <b>40-50 kg/m<sup>3</sup></b> |
| <b>Nominal CLD Hardness (40%)</b>  | <b>15kPa min</b>              |
| <b>Nominal Tensile Strength</b>    | <b>Min 250 kPa.</b>           |
| <b>Nominal Elongation at Break</b> | <b>Min 100%.</b>              |

Standard colour is grey.
